RE: Scoping Plan: Regional Transportation-Related GHG Reduction Target

Hearing Date: December 11, 2008

Dear Chair Nichols:

The City of La Habra Heights appreciates the California Air Resources Board's (ARB) work on the Proposed Scoping Plan (Scoping Plan). Sustainability is a priority for the City, and we look forward to working with the Region and State to reduce greenhouse gas emissions.

As you consider approval of the Scoping Plan at your meeting on December 11, 2008, we urge you to defer actions related to the Transportation-Related GHG Reduction Target to the SB 375 process. We appreciate the Scoping Plan's deference to SB 375 and believe that the current benchmark of 5 MMT for Transportation-Related GHG Reductions is an appropriate placeholder. This number ensures that the State can achieve its overall 2020 goal.

Thank you for your leadership of this effort. We look forward to working with you to achieve a more sustainable, clean energy California.

Sincerely,

Shauna Clark
City Manager
